Acknowledgments

This doctoral dissertation grew from a DFG-funded research project on emotions and politics at the University of Trier in 2013 into the book you have before you today. First of all, I would like to thank my supervisor, Prof. em. Dr. Oscar W. Gabriel, for his advice and guidance throughout this process. I would also like to thank Prof. Dr. Ulrich Rosar for his advice and feedback. I am grateful to my colleagues at the Heinrich Heine University Düsseldorf, the University of Koblenz and Landau, the University of Stuttgart, and the University of Trier for their comments in colloquia, and further discussions during coffee breaks. I would also like to thank all student assistants for their help during the research process, namely Felicitas Reick, Maren Reiners and Diana Thiesen. I would like to thank Dr. Anna-Maria Renner for her feedback and Anna Gaßner for commenting on earlier drafts, Lars Masch, Don MacDonald and Nicolas Wilson for their help with proofreading, and Marco Gratz for his technical advice. Last but not least, I would like to thank my friends and family for their support.
