

List of Figures

Figure 1:	Categorisation of (critical) data literacy concepts along a spectrum from practical-instrumental to critical-reflective approaches.....	38
Figure 2:	The four stages of Freire’s critical pedagogy applied to data literacy (from Tygel and Kirsch 2016, p. 113).	87
Figure 3:	Visualisation of the project’s mixed methods approach and its reciprocal influences.	99
Figure 4:	Creator backgrounds with number of resources identified in each field.....	132
Figure 5:	Identified resource formats with number of resources applying each format.....	133
Figure 6:	Identified target groups of the resources.	134
Figure 7:	Variables testing for resources’ alignment with the preliminary theoretical framework.....	136
Figure 8:	Different types of practical advice identified in the resources.	139
Figure 9:	Visualisation of the “Datenkraken” (data octopuses) by the teaching material “Lehrmittel Big Data”, R39.	140
Figure 10:	Visualisation of the “Chupadados, the Datasucker” monster (Felizi and Varon [no date]), R6.	141
Figure 11:	“Toy algorithm” that visualises how different variables affect the outcome of an algorithmic calculation included in the website “Automating NYC”, R33.	141
Figure 12:	Categories and main themes identified in the expert interview analysis.	147
Figure 13:	Main themes and subthemes in the category “goals of the resource” in the expert interview analysis.....	149
Figure 14:	Main themes and subthemes in the category “creators’ strategies and principles in implementing critical data literacy” in the expert interview analysis.	154
Figure 15:	Main themes and subthemes in the category “challenges and practical considerations” in the expert interview analysis.	164
Figure 16:	The surveyed educators’ areas of education.	173
Figure 17:	Total numbers of surveyed educators indicating how well-equipped they feel to teach about the four given topics.....	175

Figure 18: Total numbers of surveyed educators indicating how experienced they are in teaching about the four given topics. 175

Figure 19: Main themes and subthemes in the category “topics and goals” in educator survey..... 177

Figure 20: Average usefulness of resources’ formats in the educator survey in descending order. 186

Figure 21: Main themes and subthemes in the category “methods and approaches” in the educator survey. 189

Figure 22: Average agreement to research statements in the educator survey in descending order. 191

Figure 23: Main themes and subthemes in the category “challenges, needs and wishes” in the educator survey. 194

Figure 24: The surveyed educators’ average satisfaction (across all four given topics) with access to information and teaching resources in percent (n per topic, see figure 25)..... 198

Figure 25: Total numbers of surveyed educators indicating how satisfied they are with their access to information and teaching material on the four given topics. .. 198
