Dr. **Oksana Chabanyuk** is an Associate Professor of Architecture at O.M. Beketov National University of Urban Economy, Kharkiv, Ukraine. She received a Weiser Center for Europe and Eurasia Scholars at Risk Fellowship for the 2022–24 academic year at the University of Michigan. She is teaching courses on history of Eastern European architecture and urban planning at the Taubman College of Architecture and Urban Planning during her fellowship. Dr. Chabanyuk's academic interests include: standardization and early industrialization in the USSR, prefabrication in housing construction, post-socialist housing, social housing, and regeneration of residential areas. She is an architect and received her BA in Architecture, MA in Urban Planning, and PhD (2004) at the National University Lviv Polytechnic, Ukraine.

Dr. **Nadiia Dmytryk** is an associate professor in the department of architecture of buildings and structures at the Odessa State Academy of Construction and Architecture (ODABA). She is an architect and specializes in renovating shutdown industrial facilities for new functions. Dmytryk received her doctoral degree from the Kiev National University of Construction and Architecture (KNUBA), specializing in the renovation of industrial architecture and the adaptation of these structures to new functions. Her work experience includes both practical activities as well as research and teaching, starting in 2003. Dr. Dmytryk's scientific interests and project activities are aimed at studying and finding optimal solutions for preserving architectural and urban heritage, in particular of industrial architecture, and adapting historical structures to the new requirements of modern cities. She is the author of architectural monographs and educational publications.

Elvira Gizatullina is a Human Geographer, Urban Researcher in academic and applied projects Education. Since 2020: European University in St. Petersburg, Master program in Applied Data Analytics. 2014–2015: Polytechnic University of Catalonia, MA in Urban Design and Urban Studies. 2006–2008: St-Petersburg State University, MA in Geography. 2002–2006: Saint Petersburg State University, BA in Geography. Academic research projects: 2018–2021: Research project “Estates After Transition”: studies recent urbanization processes in post-socialist housing estates. The project is based on comparative case studies from six estates in East Germany, Estonia, and Russia. Supported by Russian Foundation for Basic Research (RFBR) and the European Union’s Seventh Framework Program for research, technological development and demonstration (ERA Net RUS plus program). 2020: Investigating urban activists in St. Petersburg. Lead by Center of Urbanism and Participation in European University. 2019– 2020: Research project “Political ontology of digitalization: Study of institutional bases for digital forms of governability”. Support by the Russian Science Foundation (RSF). 2018– 2019: Research project “The Big Layered Cake: towards the conceptualization of neighborliness”. Supported by the Kone Foundation (Finland). 2016– 2017: Research project “New urban economies of participation: p2r”.

Ekaterina Gladkova, M.A., is a PhD candidate and researcher at the Karlsruhe Institute of Technology (KIT) in Germany. She holds a bachelor’s degree in architecture and master’s degree in urban planning from the Irkutsk National Research Technical University (IRNITU) that includes periods of study and research abroad at the Karlsruhe Institute of Technology (KIT). Gladkova is a practicing urban planner and organizer of international urban planning workshops. She is working on planning strategies for the sustainable urban development of large settlements from the 1960s and 1970s. Her research interests include the search for methods, concepts and approaches for the renovation of residential neighborhoods from the 1960 and 1970s, including the interaction of public space, landscape and residential groups and the renovation of public space in residential neighborhoods.

Maarten van Ham is Professor of Urban Geography at Delft University of Technology in the Netherlands. He leads the Department of Urbanism and is vice-Dean to the Faculty of Architecture and the Built Environment. He studied economic geography at Utrecht University, where he obtained his Ph.D. with honours in 2002. In 2011, he was appointed Full Professor at both the universities of

St Andrews in the UK, and in Delft. He has published over 130 academic papers and 10 edited books. He is a highly cited academic with research projects in various countries. He has expertise in the fields of urban poverty and inequality, segregation, residential mobility and migration; neighbourhood effects; urban and neighbourhood change; housing market behaviour and housing choice; geography of labour markets; spatial mismatch of workers and employment opportunities.

Prof. **Daniel B. Hess**, PhD is a professor in the Department of Urban and Regional Planning at the University of Buffalo, State University of New York. In his research, he develops new pathways for understanding the complex socio-economic and ethnic landscape of cities and spatial inequalities. His research contributes to discussions that seek to re-evaluate relationships between transport and land use to address various pressing societal concerns, including pollution, congestion, and metropolitan sprawl. He accomplishes this by focusing his intellectual inquiry on connections between transportation and land use planning and resulting impacts on health, environment, and social aspects of community. Hess's research spans urban planning history and post-socialist urban space, which he has developed in Estonia and the Baltic States as a Fulbright Scholar in 2011 and in 2016–2017 as a Marie Skłodowska-Curie Fellow at the Centre for Urban and Migration Studies at the University of Tartu, Estonia. Most recently he won a 2023–2024 Fulbright Scholar for teaching and research at Tadeusz Kościuszko University of Technology in Kraków, Poland.

Knut Höller, executive Member of the Managing Board Housing Initiative for Eastern Europe (IWO e. V.), is a trained economist and M.B.A. He has profound knowledge of housing policy in Germany as well as in Eastern Europe and Central Asia and has been working in projects in direct cooperation with government institutions in different countries including the Ministry of Regional Development in Ukraine, the Ministries of the Environment in Latvia and Lithuania, the Ministry for Housing and Communal Services in Belarus and a number of public bodies in Uzbekistan and Kazakhstan. He also had regular working relations with the Russian Government, e.g. Ministry of Regional Development prior to 2014. Mr. Höller has profound knowledge and understanding of the decision-making process in Ukraine and with regards to the residential and energy sector also in other transition countries as the Baltic States, Belarus, Russia, Kazakhstan and Uzbekistan. He has a good understanding of

the complex situation after privatization of the housing stock in transition of the housing sector and the energy efficiency in buildings. He actively participated in the development of appropriated national refurbishment programs in the Baltic States and currently in Ukraine. Mr. Höller has been working in post-soviet countries' energy sector for almost 20 years, formerly with a focus on the supply side, (consultancy for district heating companies and modernization of power plants on behalf of EBRD and German institutions and companies) and beginning from 2001 within the framework of IWO more focused on the demand side, especially the housing and building sector. He was and is engaged in projects of the European Union, the German Federal Ministry of Economic Affairs and Energy and the Federal Ministry of Environment, GIZ and other institutions.

Klavdia Kamalova is architect, young scientist and senior lecturer in the department of urban design at the Institute of Architecture and Design of SibFU (Russia, Krasnoyarsk). She has a master's degree in urban planning. Her field of scientific interest focuses on the formation and function of urbanized residential areas, as well as the reconstruction and redevelopment of mass housing estates. She is the author of more than 20 scientific papers on the problems of urban territorial development. She has participated in five research projects and acted as the head of one.

Ekaterina Kirichenko is an urban planner who has contributed to a number of urban improvement projects in the city of Krasnoyarsk and on the regional level in the Krasnoyarsk Territory (Russia). She holds a master's degree in urban planning. She is the author of scientific publications devoted to the development of mass housing estates.

Ekaterina Korableva is a social scientist, she holds a dual degree in liberal arts and sciences from Saint- Petersburg state university, Russia and Bard college, NY, USA. She has worked on comparative study on the relation of recent urbanization processes and governance approaches in post-socialist housing estates, with case studies in Russia, Estonia and East Germany. She conducted an oral history and audiovisual art project on experiences of language loss and dislocation in Baklanikha Village. Korbaleva works on a pilot-project of participatory planning in Saint Petersburg as well as an complex participatory research to determine priority directions of municipal district development. She has worked as an incubator for social initiatives in Krasnoselsky district and partic-

ipated in a research laboratory to explore gentrification scenarios in Kolomna Municipal Unit, Saint Petersburg. Korableva frequently presents her research at conferences among others her paper “What’s wrong with khrushchekas? Constructing the problem of the first series of mass prefabricated housing estates in Saint Petersburg” at Higher School of Economics in Moscow and “Living in Limbo: Estates in Transition. Governance and ownership in Saint Petersburg, Russia, post-social new liberal city” at the Association Cities After Transition in Belgrade.

Prof. Dr. **Valerii Kozlov** is an architect and the head of the master’s degree programs in architecture at Irkutsk National Research Technical University (IRNITU). From 1989 to 2009 he was dean of the faculty of architecture at the Irkutsk Scientific Research Technical University. From 1989 to 2009 he was the chair for architectural design at Irkutsk National Research Technical University (IRNITU). Since 2021, he has been scientific coordinator of the International Baikal Winter Urban Planning University in Irkutsk. His main research interests include the sphere of regulation of the development and transformation of the planning structure of cities, as well as the methodology of architectural education. Since 1997, Kozlov has been a professor at the International Academy of Architecture (of the MAAM). He is the author of urban planning and architecture monographs and educational publications.

Ludmila Kozlova is a PhD candidate at Irkutsk National Research Technical University (IRNITU). She also works as an architect and designer. Her research interests include the development of Irkutsk’s public spaces, their features, qualitative characteristics and the principles of their improvement. She has presented her research at international conferences and contributed to international research projects, “Unloved Heritage Socialist City?” from 2016–2019 and “Living Laboratory” from 2021–2023, focused on understanding mass housing heritage and its transformations. She has taught architectural design at IRNITU and consulted in the city laboratory IRNITU modeling pedestrian spaces in the historical city; she has also taught at the center for children’s creativity in architecture and design. She is the author of numerous scientific publications in the field of urban environment and architecture.

Dr.-Ing. **Anastasia Malko** is a senior researcher at the Karlsruhe Institute of Technology (KIT) in Germany. She is an architect and urban planner specializing in the protection of architectural and cultural heritage. Dr.-Ing. Malko

holds a PhD in engineering from the Technical University of Dresden (Germany), specializing in the preservation of cultural heritage and urban development. Her work includes participation in urban planning workshops in Cergy-Pontoise (Les Ateliers Internationaux de Maîtrise d'Oeuvre Urbaine de Cergy-Pontoise, France) and Ecole de Chaillot, an architectural school for the preservation of historical monuments in Paris, France. Dr.-Ing. Malko's research is focused on principles and concepts for the preservation and development of the historical, architectural and urban planning environment, including the era of Soviet modernism.

Gavriil Malyshev, urban planner and analyst in MLA+ architectural bureau, MA in Urban Planning (Institute of Design & Urban Studies – ITMO University in St. Petersburg). Researcher of the post-soviet architecture “Capitalistic romanticism”. Experienced in master planning and zoning documents, special interest in GIS-analytics and parametric zoning plans. Currently working on Voronezh green infrastructure strategy. Author of research works on the topic concerns soviet mass-housing reconstruction spatial and policy projects.

Rūta Matonienė is the Senior Advisor to the Chief Architect of Vilnius city Municipality. Her main experience in the Vilnius city administration is connected to the previous experience as a deputy director of the Urban Development Department of Vilnius city administration for 8 years. Main activities related to that position are: management and supervision of planning and design processes in fields of landscape, cultural heritage, strategic planning, development and implementation of projects, competitions, international cooperation in those fields of actions; implementation of the main strategic directives, related with the sustainable urban development; planning and organizing the policy of the public spaces establishment in Vilnius city; Advising the administration on the questions, related with the City Master Plan; strategic urban planning; management of centralized EU projects, carried out by European member countries partnership networks; establishing and maintaining contacts with national and international public, private and non-government institutions and organizations, with the social partners, management of many cross border cooperation projects with international partners. Consulting of national and local authorities in elaboration and implementation of city development policy.

Prof. h.c. Dr. Ing. **Philipp Meuser**, Architect and Publisher. Member of the Association of German Architects (BDA). Born 1969, Managing director of Meuser Architekten GmbH and head of DOM publishers. From 1991 to 1995, studied architecture at the Berlin Technical University. From 1995 to 1996, editorial work for the *Neue Zürcher Zeitung*, Switzerland. Part-time post-graduate studies in the History and Theory of Architecture at the Swiss Federal Institute of Technology Zurich (ETH Zürich), graduating in 1997. PhD on the Soviet Mass Housing (Berlin Technical University, 2015). Federal Cross of Merit for cultural and scientific exchange with the states of the former Soviet Union (2018). From 1996 to 2001, policy advisor to the Senate Department for Urban Development as part of the Stadtforum Berlin. Visting Professorship at the Kazakh National Technical University, Almaty (2015). Tutor at the Strelka Institute Moscow (2016/2017) and the Architectural Association London (Easter Island Visiting School 2017). Since 2018 Honorary Professorship at the O.M. Beketov National University of Urban Economy in Kharkiv, Ukraine. International planning and construction projects with particular emphasis on Eastern Europe and Muslim countries. Realisation of various buildings in Kazakhstan, including for the German, British, French, Swiss and Canadian embassies in Astana. Consultant to the Federal Foreign Office in crisis regions (Libya, Mali and Yemen) since 2012. Commissioned by the German Federal Foreign Office to research safety and security of Diplomatic Missions (2013).

Alexander Mikhaylov, junior research fellow, HSE Faculty of Urban and Regional Development (Vysokovsky Graduate School of Urbanism). Alexander has completed the master degree in Urban Planning and a bachelor degree in Human Geography and possesses 3-year working experience in the field of urban studies. His research interest includes urban property, spatial structures of cities and their representation in context of cultural identities.

Prof. **Virág Molnár** holds a PhD from Princeton University and is Associate Professor of Sociology at the New School for Social Research in New York. Her research explores the intersections of culture, politics, and social change in Central and Eastern Europe. She has written about the politics of architecture in socialist and postsocialist Eastern Europe, the post-1989 reconstruction of Berlin, and the new housing landscape of postsocialist cities. Current work focuses on the cultural production and consumption of nationalist populism in Hungary. Her book *Building the State: Architecture, Politics, and State Formation in Postwar Central Europe* (Routledge, 2013) received the Mary Dou-

glas Prize from the American Sociological Association. She has been a visiting fellow at the Institute for Advanced Study in Princeton, the Humboldt Universität in Berlin, and the American Academy in Berlin. Her research has been supported by the National Science Foundation and the American Council of Learned Societies, among others.

Nilsson Samuelsson works as urban planner for the city of Dresden. He studied architecture and art history in Stockholm and Dresden. During his studies he specialized on urban planning with a focus on housing estates from the mid 20th century. In 1998 he initiated a documentation of the housing estate “Navestad” in south Sweden. Later he was commissioned by the Swedish National Heritage Board as editor for publication “Förändra Varsamt” (Mindful Transformation) on Swedish large housing estates from the 1960–1980.

Prof. Dr. **Olga Savitskaya** is a professor in the urban planning department of the Institute of Architecture and Fine Arts at Odessa State Academy of Civil Engineering and Architecture. She holds a PhD in architecture. She is organized, supervised and took part in the following international student urban planning workshops: “Portopolis-Odessa. Development strategy,” Vienna-Lviv-Odessa, 2005, 2006, 2007, 2008; “London -Odessa,” 2010, 2011; “Black Sea coast: Problems and development,” Varna, 2011, 2012; “Architecture and Sustainable Development & Advanced Technologies without Losing Identity,” Tempus, 2012, 2015; “Urban design futures and smart cities,” Cambridge, 2016; “Unloved heritage of socialist cities,” Karlsruhe, Odessa, 2016, 2019. Her lectures include “Comprehensive studies of urban planning space” and “Aesthetics of the urban and natural environment.” Key scientific articles include 36 publications.

Marianna Shkurko, leading expert, HSE Faculty of Urban and Regional Development (Vysokovsky Graduate School of Urbanism). With a completed degree in Urban Planning and Spatial Development, and five-year working experience with urban stakeholders, Marianna occupies the position of leading expert at Vysokovsky Graduate School of Urbanism. Her master’s thesis was devoted to exploration of social nature of private property for housing in post-Soviet Moscow. Standing on the anthropological perspective, she continues her study in the field of housing ownership and coordinates a part of the faculty research on the housing policy in Russia and the context of Moscow Renovation Programme.

Violeta Stefanović (1994), M.Sc. Arch. and PhD candidate is a Senior Scientific Researcher at the University of Novi Sad, Faculty of Technical Sciences, Department of Architecture and Urbanism in Novi Sad, Serbia. The focus of her research is the modernist architecture of socialist Yugoslavia, particularly collective housing complexes and their resulting communities. Her work has been published in a number of monographies and she has internationally presented and published many scientific papers pertaining to the topics of her main research field. She has also curated two international architectural exhibitions and was the editor of three exhibition catalogues.

Tiit Tammaru is Professor of Urban and Population Geography at the Department of Geography, University of Tartu, and a member of the Estonian Academy of Sciences. He leads the development of longitudinal linked censuses and registers data for urban and population geographic studies in Estonia. He was trained in human geography and received a doctoral degree from the University of Tartu in 2001. Since then, he has worked as a Lecturer, Researcher, Senior Researcher and Professor at the Department of Geography, University of Tartu. He has also worked as a Guest Researcher at the Department of Geography, University of Utah, and Department of Geography, Umeå University. Currently, he is a Visiting Professor at the Neighbourhood Change and Housing research group at the Department OTB—Research for the Built Environment, Faculty of Architecture and the Built Environment, Delft University of Technology. Tammaru theorizes the paradigmatic shift in the study of spatial inequality from residential neighborhood approach to activity space-based approach. Together with colleagues from Delft and Tartu he is developing the concept of the vicious circle of segregation that focusses on how social and ethnic inequality and segregation are produced and reproduced across multiple life domains: homes, workplaces, schools, leisure time activity sites. He is the co-editor of the book *Housing Estates in Europe: Poverty, Ethnic Segregation, and Policy Challenges* (Springer Publishing 2018).

Maria Tumureeva, M.A., is an architect and urban planner, as well as a PhD candidate at the Karlsruhe Institute of Technology (KIT) in Germany. Tumureeva holds a bachelor's and master's degree from Irkutsk National Technical University (IRNITU). During her studies, she held internships at KIT's chair of international urban design. Her research is dedicated to exploring and advancing knowledge in the field of spatial development and renovation of mass housing districts built in 1960–1980s. She is also actively

engaged in research projects focused on understanding mass housing heritage and its transformations. Beyond academic research, her professional trajectory encompassed a spectrum of experience, including making contributions to concepts of spatial development and planning for small cities in the Irkutsk region and designing code concepts for cities.

Dr. **Sasha Tsenkova** is Professor of Planning and Director of Cities, Policy and Planning lab at the University of Calgary. She holds a PhD. in Architecture (Technical University, Prague), a PhD in Planning (University of Toronto), MA in Urban Studies (University of Sussex) and MArch (Sofia University). A strong commitment to interdisciplinary research and scholarship has guided her career. Dr. Tsenkova specializes in urban planning, housing policy and comparative urban development. Her research and professional activities in these areas for the World Bank, Council of Europe and the United Nations include a range of housing and urban projects in more than 20 countries in Central and Eastern Europe, Latin America and Central Asia. She is the author of 15 books and research monographs and over 80 articles, book chapters and research reports on urban policy, regeneration, urban sustainability and housing policy. Throughout her extensive academic and professional career, Dr. Tsenkova's research has influenced the work of academic institutions, governments, public and civil society organizations engaged in the field of housing policy and urban planning in Europe and beyond. Her scholarship is internationally recognized by a number of prestigious awards such as Killam Fellowship, Urban Studies Fellowship, Sasakawa Scholarship, International Peace Scholarship, and Cambridge & Harvard Universities Visiting Fellowship. Dr. Tsenkova is a Fellow of the Canadian Institute of Planners and the leader of two working groups in the European Network for Housing Research.

Daria Volkova is a PhD candidate at the Institute for European Urban Studies (IfEU) at Bauhaus University Weimar and an assistant researcher at the Laboratory of Urban Sociology at HSE University in Moscow. Daria focuses on housing research, urban politics, and expertise. Her interests lay in spheres of residential mobility, housing systems, urban discourses, emergence and exclusivity of urban expertise and consultancy, and methodology of housing studies. Daria conducted fieldworks in different cities of Russia (Moscow, Ekaterinburg, Vladivostok, Sarapul, Tula) and will start her PhD-fieldwork in Germany.

The contributions to this publication were presented during the conference, “Dialogue on Large Housing Estates. Experiences and Perspectives” in Karlsruhe in April, 2021.

The conference was part of the second tier of a research project focused on the heritage and future use of large housing estates in Germany, Russia and Ukraine.

A special thank goes to the entire team who helped organize the conference, namely the student assistants Frederic Merziglod and Pia Thissen, and the moderators Dr. habil Melinda Benkő PhD, Dr. phil. Dr.-Ing. Bernd Hunger and Fedor Kudryavtsev who ensured a high level of debate during the sessions. The project receives generous support from the VW Foundation.

PUBLISHING. KNOWLEDGE. TOGETHER.

transcript publishing stands for a multilingual transdisciplinary programme in the social sciences and humanities. Showcasing the latest academic research in various fields and providing cutting-edge diagnoses on current affairs and future perspectives, we pride ourselves in the promotion of modern educational media beyond traditional print and e-publishing. We facilitate digital and open publication formats that can be tailored to the specific needs of our publication partners.

OUR SERVICES INCLUDE

- partnership-based publishing models
- Open Access publishing
- innovative digital formats: HTML, Living Handbooks, and more
- sustainable digital publishing with XML
- digital educational media
- diverse social media linking of all our publications
