DEDICATION

This one's for **Prof. Dr. Dunder Kocaoglu**, Founding Chair and Professor Emeritus, Department of Engineering and Technology Management, Portland State University, Portland, Oregon, USA, and President and CEO, Portland International Center for Management of Engineering and Technology (PICMET).

Professor Kocaoglu retired this year after 40 years in academia. He was not just a professor giving courses, he gave students visions, supported them always and helped them starting a new chapter in their lives.

His PICMET conference has become an annual one, held at different locations in the world; bringing together experts and defining the directions of technology management for decades.

Dunder, thank you for your absolutely exceptional work on technology management and the traces that you left!

ACKNOWLEDGEMENTS

For the development of this publication thanks to the scientific team of **ETCOP (DDr. Anna Stein, Dr. Siegfried Begun** and their teams) for the excellently done project management and coordination with the board of reviewers.

Thanks to my Co-editor, **Assoc. Prof. Dr. Birgit Oberer**, for an excellent critical review and a well-defined quality assurance program implemented firstly for this volume of our Enterprise & Business Management series.

Special thanks to the honorary **international board of reviewing professors** from the USA, Canada, Switzerland, England and Austria.
