LIBER Quarterly

*The Journal of the
European Research Libraries*

The specialist publication for information professionals

Edited by Esko Häkli on behalf of the
Ligue des Bibliothèques Européennes
de Recherche (LIBER)
4 issues annually. Volume 8 (1998)
Annual subscription: DM 325.00
Single issue: DM 94.00. ISSN 1435-5205

LIBER Quarterly is the prestigious journal of the
Ligue des Bibliothèques Européennes de
Recherche (LIBER). Highly respected within the
library world and subscribed to by leading
archivists, librarians and information profession-
als throughout Europe and beyond, this journal
offers in-depth reports on the practical aspects
of library management and expert analysis of
current developments within the information
world.

International and in-depth

Issues of text preservation, bibliographic control,
data processing, networking, library architecture
and design: these are just some of the subjects
LIBER Quarterly regularly reports on. The interna-
tional background of the LIBER organization also
gives the journal a particular emphasis on com-
parative approaches to librarianship and on
ways in which libraries in Europe can cooper-
ate.

Keeps you at the forefront

LIBER Quarterly helps information specialists get
the most out of technological advances and
ever-expanding means of international communi-
cation, while preserving the best of their tradi-
tional skills.

A new look

Formerly known as "European Research Libraries
Cooperation: The *LIBER Quarterly*", the title of
the publication has this year been shortened.
This means it now conforms with the title already
used by large numbers of the library fraternity.
The journal has also been given a minor face lift
with a modernized cover page and layout.
These have not been the only changes.

A new publisher

As of 1998 *LIBER Quarterly* is published by
K.G. Saur Verlag. With its long-standing commit-
ment to library publications and its high profile
within the library community, K.G. Saur has the
experience, resources and know-how required to
supervise and support a publication of this
calibre.

New editors

With this year's first issue of *LIBER Quarterly*
there is also a new look to the editorial staff. Dr.
Peter te Boekhorst of the University Library of
Münster, Germany, has taken over the post of
chief editor. He is assisted by Ms. Ulrike
Scholle, MA, from the same library.

Current issues

The current *LIBER Quarterly* explores one of the
most exciting new issues in the library world: the
development of a national library adequate to
the electronic environment. Contributions by ex-
perts from all over Europe outline the theory and
practice of a "National Electronic Library" in
their respective countries.
