It is the task of the *Institute of Theology and Peace* to conduct research into the ethical foundations of peace among humans and incorporate them into current political discourse on peace. Through the publication “Studien zur Friedensethik” (Studies on Peace Ethics) the Institute aims to intensify political debate on foreign policy and security with a greater emphasis on peace ethics. In endeavouring to achieve this goal, it answers the question of which policies will be of greatest assistance to people who are threatened by violence, poverty and lack of freedom today and which, at the same time, will help to establish a peaceful international order in the future, in which security, justice and respect for human rights are guaranteed for everyone.
