

List of Figures

This book relies to some extent on images of buildings and works of art to make a point. Due to copyright issues, many images cannot be reproduced in an open access volume. Therefore, information is provided as to where a particular image can be found on the internet or in print.¹ Sometimes this information is accompanied by an assignment to guide viewers to specific aspects of the image. Below is a list of artworks and buildings used throughout the book.

Figure 1:	August Sander: Young Farmers (1914), Catholic Priest (1927), Victim of Persecution (1938) / Bernd and Hilla Becher: Watertowers (1972-2009)	31
