

Preface

The collections of papers presented in this volume are the reworked contributions to the conference “Making Sense as a Cultural Practice – Historical Perspectives” which took place in Mainz, 18-20th September 2012.

Thanks to all the colleagues for their commitment and their readiness to deliver their papers within six months.

I would like to thank the Research Unit Historical Cultural Sciences at the Johannes Gutenberg-University Mainz for financial support and all the people who helped to plan, organize and accomplish the conference, especially Kristina Müller-Bongard.

Jörg Rogge

Mainz, May 2013
