<b>Preface</b> .....	11
<b>Foreword to Volume 2</b> .....	13
<b>I Amazônia Legal in the mid-1970s and 1980s</b>	
<b>1. Alternative strategies to the colonisation policy of the Military Government</b> .....	19
1.1. The Polamazônia programme as of 1975 .....	19
1.2. Mentality of "El Dorado": Territorial exploitation by private national and international capital .....	20
<b>2. Polonoroeste: A new strategy of integrated rural development</b> .....	47
2.1. Increasing migration activities and agrarian colonisation in Rondônia .....	48
2.2. Evaluation of the Polonoroeste programme and its modifications .....	51
2.3. Impact of migration flows and colonisation activities in Rondônia on the State of Acre .....	55
<b>3. Conflicts of interest at the Amazonian pioneer fronts in the 1980s</b> .....	59
3.1. Land conflicts .....	59
3.2. Situation of the Indigenous people: Violence, displacement, attempts for protection in Indigenous "reservations" and the problem of invasions .....	61
3.3. Deforestation and forest reserves until the end of the 1980s .....	75
<b>4. Mega-projects and their impact on the regional development in East Amazonia: The Grande Carajás programme (PGC)</b> .....	83
4.1. Programme concept, implementation, and targets of the PGC in a transition period to the "New Republic" .....	83
4.2. The Carajás iron ore project of the Cia. Vale do Rio Doce .....	90
4.3. The hydroelectrical power plant Tucuruí: Environmental and socio-economic impacts .....	116
4.4. Alumina and aluminium industries in the PGC region .....	124
4.5. Problems of regional development and conflicts in the PGC region .....	133

4.6. The PGC-Agrícola plan .....	144
4.7. Final considerations about the Grande Carajás programme (PGC) .....	151
<b>5. The energy-related Plano 2010 and its possible impacts on Amazonia .....</b>	<b>157</b>
<b>6. The Significance of the New Constitution of 1988 for environmental policy in Amazonia .....</b>	<b>161</b>
6.1 Steps in the development of Brazilian Environmental Policy on the way to integration into the New Constitution by “Nossa Natureza” .....	161
6.2 The emergence of environmental movements and their active political role .....	168

## **II Promising environmental concepts for Amazonia under pressure by economic growth and agrobusiness strategies (1990s–2018)**

<b>1. Previous international initiatives for the protection of tropical rain forests .....</b>	<b>175</b>
1.1. Tropical Forestry Action Plan (TFAP) .....	175
1.2. International Tropical Timber Agreement (ITTA) .....	176
1.3. Activities of international governmental organisations .....	177
1.4. International government initiatives .....	178
1.5. The German contribution to the protection of tropical rain forests in Brazil until 1990 .....	179
1.6. UN Conference on Environment and Development (UNCED) in Rio de Janeiro in 1992 .....	180
<b>2. The International Pilot Programme to Conserve the Brazilian Rain Forests (PPG7: 1993–2009): An approach to sustainable regional development .....</b>	<b>185</b>
2.1. Introductory note .....	185
2.2. Situation in the Brazilian Amazon region at the beginning of the Pilot Programme .....	185
2.3. Creation and main objectives of the Pilot Programme .....	191
2.4. Structure, subprogrammes and components of the Pilot Programme .....	195
2.5. Evaluation of the PPG7: the most important results and deficiencies .....	207
<b>3. Extensive infrastructure programmes as an extreme contrast to concurrent environmental policy measures .....</b>	<b>213</b>
3.1. Brasil em Ação (Brazil in Action) (1996–1999) and Avança Brasil (Let’s go, Brazil) (2000–2003/07) .....	213
3.2. New challenges regarding forest destruction: El Niño events and forest fires in Roraima .....	218
3.3. Amazonia: an “urbanised forest” .....	221
3.4. Situation in 2000: A new macro-zoning of Amazonia as result of development programmes in the 1980s and 1990s .....	224

<b>4. Private colonisation in Mato Grosso and expansion of agribusiness into the <i>cerradão</i> and tropical forest ecosystems</b> .....	227
4.1. Migration flows and private colonisation from 1970 onwards.....	227
4.2. Regional development and boom of soybean cultivation in Mato Grosso.....	236
4.3. The soybean moratorium.....	244
4.4. Soybean production in Mato Grosso and the impact of logistical optimisation of export-oriented soybean transport in Amazônia Legal .....	246
<b>5. The new regional policy of the Plan of Sustainable Amazonia (PAS)</b> .....	255
5.1. Political initiatives during the government of President Lula da Silva.....	255
5.2. The Sustainable Regional Development Plan for the area under the influence of the BR-163 (Cuiabá-Santarém).....	262
<b>6. The hydroelectric power plant Belo Monte and its environmental and socio-ecological impacts</b> .....	269
6.1. The struggle of operators and opponents of the construction of Belo Monte, the confusion of judgements and political entanglements .....	269
6.2. The hydroelectric power plant Belo Monte and its environmental and social impacts .....	276
6.3. Political decisions of the Rousseff and Temer governments concerning Amazonia during the decade of the construction of Belo Monte .....	281
<b>7. Population in Amazônia Legal 1970-2022</b> .....	297
7.1. Regional population growth of urban and rural population.....	297
7.2. Indigenous population in territories or urban areas and today's situation of Indigenous peoples .....	301
<b>8. Scientific research centres, research cooperation programmes and NGO activities in the Amazon region</b> .....	315
8.1. Brazilian state research centres in Amazonia.....	315
8.2. German-Brazilian research programmes.....	318
8.3. National and international NGOs' research activities in the Amazon region.....	322

### **III Devastation and environmental degradation policies in Amazônia Legal during the Bolsonaro Government (2019-2022)**

<b>1. Chaotic activities of a decided enemy of sustainability in Amazonia</b> .....	333
<b>2. Destruction of tropical forest ecosystems due to logging and slash-and-burn activities</b> .....	339
<b>3. The ecological impacts of deforestation and problems of climate change</b> .....	349
<b>4. Threats to the Indigenous population and their habitats in Amazonia</b> ....	355

<b>5. Disagreements between donor countries and the Bolsonaro government regarding the Amazon Fund.....</b>	<b>361</b>
<b>6. The EU-Mercosur agreement failed under Bolsonaro’s presidency .....</b>	<b>363</b>
<b>7. The situation of Amazônia Legal during the Bolsonaro Government and possible future perspectives .....</b>	<b>367</b>

## **IV Epilogue**

<b>1. Hopes after the change of government in 2023: Lula da Silva as game changer? .....</b>	<b>371</b>
1.1. Uncertainty and violence during run-off elections and change of government.....	371
1.2. Lula da Silva’s restart: Establishment of new ministries, environmental and Indigenous agencies, and reorganisation of Amazonian issues.....	372
1.3. Revitalization of the Amazon Fund, the free trade agreement EU-Mercosur and BRICS geopolitics .....	377
1.4. A new impetus for the Amazon Cooperation Treaty? .....	387
<b>2. Concluding remarks .....</b>	<b>391</b>
<b>Appendix .....</b>	<b>403</b>
List of Figures .....	403
List of Tables .....	405
Acronyms .....	406
Glossary .....	410
<b>References .....</b>	<b>411</b>

In memory of Orlando Valverde and Hilgard O'Reilly Sternberg,  
eminent Brazilian geographers and pioneers in research in the Amazon region.
