Introduction	9
1. A Short History of Agrobiodiversity Loss and Conservation	29
1.1 The “Green Revolution”: Agricultural Modernisation and the Making of Agrobiodiversity Loss as a Global Ecological Problem	32
1.2 Genebanks Against Genetic Erosion: The Proliferation of <i>ex situ</i> Conservation	36
1.3 Conserving the “Heritage of Mankind”? Politicising the Loss and Conservation of Plant Genetic Resources	43
1.4 From the Convention on Biological Diversity to the International Seed Treaty: Consolidating International Cooperation	52
1.5 The Svalbard Global Seed Vault (I): Safeguarding the World’s Plant Genetic Diversity	63
2. The Svalbard Global Seed Vault and Agrobiodiversity Conservation in Social-Scientific Research	71
2.1 The Current State of an Emergent Field of Research	71
2.2 Research Design	83
3. Exploring the Naturalcultural History and Politics of Svalbard and the Global Seed Vault	95
3.1 Svalbard: “The Last Frontier”? Dis/continuities of Frontierism in <i>ex situ</i> Conservation	96
3.2 The Svalbard Global Seed Vault (II): A Vault of Many Worlds	120
4. Assembling World(ing)s of Conservation	141
4.1 The <i>ex situ</i> World of Conservation: Extending the Present of “Life Itself”	143

4.2 From Global to Earthly Interdependence: Thinking Conservation as Mutual Care in More-Than-Human Worlds Through the Potato Park	165
5. Conserving (Hi)Stories, Cultivating Futures	201
5.1 “And No, It’s Not About the End of the World!” Apocalyptic Imaginaries and Technoscientific Promises of Salvation	203
5.2 Conservation as Commemoration: The Art of Mourning Agrobiodiversity Loss	223
6. Coda	251
6.1 Rethinking Agrobiodiversity Loss and Conservation Through the Svalbard Global Seed Vault	252
6.2 Collecting Seeds of a Critical More-Than-Human Sociology For (or Against) the Anthropocene	255
