Martina Schmidhuber, Andreas Frewer (eds.)
Healthcare as a Human Rights Issue

Menschenrechte in der Medizin | Human Rights in Healthcare | Volume 4
edited by Prof. Dr. Dr. Heiner Bielefeldt and Prof. Dr. Andreas Frewer, M.A.

Abstract

This book deals with various facets of the human right to health: it's normative profile as a universal right, current political and legal conflicts and contextualized implementation in different healthcare systems. The authors come from different countries and disciplines – law, political science, ethics, medicine etc. – and bring together a broad variety of academic and practical perspectives. The volume contains selected contributions of the international conference »The Right to Health – an Empty Promise?« held in September 2015 in Berlin and organized by the Emerging Field Initiative Project »Human Rights in Healthcare« (University of Erlangen-Nürnberg).
