Tabelle Anhang 6: Lister aller mit der DSGVO befassten Treffen des Rats in der JI-Konfiguration (eigene Zusammenstellung auf Grundlage der Sitzungsprotokolle und Tagesordnungen)

Nr.	Datum	Akteur	Thema
1	15.02.2012	ASIV - 2396. Tagung	Application of the COMIX-procedure to the debates regarding the proposed JHA Data Protection Directive and General Data Protection Regulation
2	06.03.2012	ASIV - 2399. Tagung - Coreper Part 2	Withdrawn: Optional consultation of the European Data Protection Supervisor 6911/12
3	09.10.2012	ASIV - 2424. Tagung - Coreper Part 2	Preparation of the Council meeting (Justice and Home Affairs) on 25/26 October 2012 - (poss.) Proposal for a Regulation of the European Parliament and of the Council on the protection of individuals with regard to the processing of personal data and on the free flow of such data (General Data Protection Regulation) : The Presidency will give an oral state of play and ask Ministers to instruct their collaborators to seek viable solutions to problems identified so far.
4	24.10.2012	ASIV - 2426. Tagung - Coreper Part 2	The Chair informed the Committee that the Council would be invited to approve the implementation report on the Council conclusions on the protection of individuals with regard to the processing of personal data and on the free flow of such data
5	14.11.2012	ASIV - 2429. Tagung - Coreper Part 2	Withdrawn: (poss.) GDPR Questionnaire on delegated/implementing acts 14946/1/12
6	27.11.2012	ASIV - 2431. Tagung - Coreper Part 2	Report on progress achieved under the Cyprus Presidency 16525/12: The Committee discussed the Presidency's progress report, which was well received by many delegations. Regarding the issue of the risk-based approach, the Chair agreed to remove a possible ambiguity in the wording of the third indent of paragraph 25. Concerning the question of the flexibility for the public sector, several delegations wanted to highlight the issue of the choice of legal instrument more, whereas others, including the Commission, thought this issue should no longer be mentioned. The Chair decided not to change the fourth indent of paragraph 25, but to remove a possible contradiction by changing the last sentence of paragraph 24. The thus amended Progress report would be submitted to the JHA Council of 6-7 December 2012.
7	26.02.2013	ASIV - 2442. Tagung - Coreper Part 2	Implementation of risk-based approach - Flexibility for the Public Sector - Orientation debate 6607/13 The Committee briefly discussed the Presidency note, which was broadly welcomed by delegations. The risk-based approach as outlined by the Presidency was widely supported. The Chair clarified at the outset of the debate that the Council was not going to discuss the question whether the draft Regulation could provide sufficient flexibility for the public sector. This was welcomed by several delegations and at their request the Chair indicated that the revised document for the Council would contain further clarification in this regard.
8	02.05.2013	ASIV - 2450. Tagung - Coreper Part 2	Specific issues 8825/13 The Committee engaged in a detailed discussion of questions on 1-3 set out in the Presidency note. As the opinions of Member States on how to deal with these questions were divided, the Chair announced that the Presidency would reflect on how to deal with these questions in view of the June JHA Council meeting.
9	07.05.2013	ASIV - 2451. Tagung - Coreper Part 2	Specific issues 8825/13 The Committee discussed questions 4 to 7 set out in the Presidency note. On question 4 there was a majority in favour of replacing the word "explicit" with "unambiguous" in Article 4 and in favour of deletion of paragraph 4 of Article 7. On question 5, many delegations indicated further scrutiny was

Nr.	Datum	Akteur	Thema
			required, especially in view of the links between this article and other parts of the draft Regulation. On question 6, while many delegations could agree to the text, others needed further scrutiny of the proposed text of Article 80. On question 7, most delegations could support the alternative proposal for Article 80a by the Swedish delegation, set out in DS 1376/13. The Chair concluded that the Presidency would further reflect on how to present this file to the JHA Council in June, in preparation of which the Committee would revert to the file.
10	23.05.2013	ASIV - 2453. Tagung - Coreper Part 2	Agreement on key issues 9398/13 The Committee discussed the conclusions proposed by the Presidency in document 9398/13, as amended in DS 1452/13. The Committee also engaged in a brief discussion on the possible inclusion of EU institutions and bodies in the scope of the draft Regulation. The Chair indicated the item would be reverted to at the next meeting of the Committee.
11	28.05.2013	ASIV - 2454. Tagung - Coreper Part 3	Key issues 9398/1/13 The Committee engaged in a discussion on the Presidency note, which was focused on the type of support Member States were willing to lend to key principles underlying the revised text of Chapters I-IV of the draft General Data Protection Regulation. A few other issues were raised as well. The Chair acknowledged that there were still a number of outstanding issues and indicated that the Presidency would further reflect as to the exact wording of the Presidency note that would be submitted to the Council.
12	25.09.2013	ASIV - 2467. Tagung - Coreper Part 4	The one-stop-shop mechanism 13643/13 Following a presentation by the Presidency of its discussion note, the Committee engaged in a lengthy discussions of the issues raised in the paper. The vast majority of delegations intervening indicated that the need of 'proximity' of the supervisory authority was crucial element to be taken into account. Whilst many could lend support to the philosophy underlying the so-called one-stop-shop mechanism, only few Member states could accept the full implications referred to in question 1 of the Presidency note. Delegations gave varying answers regarding the alternatives in question 2.
13	02.10.2013	ASIV - 2468. Tagung - Coreper Part 5	The one-stop-shop mechanism 14074/1/13 The Presidency presented its revised note. Following a lengthy debate, the Presidency indicated that it endeavour to further simplify the questions submitted to the Council, while at the same time ensuring that the Ministers were invited to make clear choices regarding the one-stop-shop mechanism.
14	27.11.2013	ASIV - 2476. Tagung - Coreper Part 6	The one-stop-shop mechanism: partial general approach on essential elements 16626/1/13 The Chair announced that the Presidency would not be seeking a partial general approach on a legal text on this issue at the Council. This was welcomed by a large number of delegations, which stated that, notwithstanding the progress achieved on this topic, they were not in a position to agree to a partial general approach. Regarding the question whether the supervisory authority responsible for the main establishment of a controller could in some cases be entrusted with corrective powers, delegations were divided and some delegations were still undecided. The CLS intervened to make a number of points regarding the relationship between the one stop shop mechanism and judicial redress and judicial review for individuals affected by data protection violations. The Chair asked the CLS for written opinion on this.

Nr.	Datum	Akteur	Thema
15	03.12.2013	ASIV - 2477. Tagung - Coreper Part 7	Essential elements of the one-stop-shop mechanism 16626/3/13 The Chair outlined the Presidency note, with which the Commission disagreed. A few delegations intervened, expressing regret that it had not been possible to achieve further progress on the important question of the one-stop shop mechanism. The Chair concluded that the Presidency note would be submitted to the Council.
16	26.02.2014	ASIV - 2487. Tagung - Coreper Part 8	Orientation debate on certain issues 6762/14 Following a lengthy debate during which many delegations pleaded for a rewording of the questions and indicated that they were not willing to ask the Council for a partial general approach on any part of the legal text, the Presidency emphasised that it was seeking a political orientation debate at the Council. It also announced that it would endeavour to address the concerns expressed by delegations and that technical work would have to continue after the Council meeting. The Chair also indicated that the Presidency would provide, as soon as possible after the Council, information on how it intends to proceed further in relation to this file.
17	20.05.2014	ASIV - 2498. Tagung - Coreper Part 9	Partial general approach 1 on Chapter V - Orientation debate on one-stop-shop mechanism 9865/14 An important number of delegations indicated that they would be able to support a partial general approach on Chapter V on the understanding that the caveats referred to in the Presidency note applied. Regarding the three questions set out in the Presidency note, it was concluded that JHA Counsellors would try to further fine-tune the proposed solutions and that the Committee would revert to the issue at its session of 28 May 2014.
18	28.05.2014	ASIV - 2499. Tagung - Coreper Part 10	Partial general approach 1 on Chapter V – Orientation debate on one-stop-shop mechanism 9865/2/14 10139/14 The Committee discussed the Presidency proposal for a partial general approach on Chapter V, which received wide support from delegations. Austria and Slovenia made the following statement: 'Austria and Slovenia are prepared to support the partial general approach under the conditions stated in paragraph 10 points i-iii of the document 9865/2/14 REV 2. The support is granted for the basic concept of Chapter V under the understanding that important issues were not sufficiently resolved and thus Member States are not precluded from discussing and making further proposals for improvement of Chapter V and articles linked with the rules stipulated therein. In this regard Austria underlines the importance of improvements and clarifications in particular regarding Art. 42 with a view to undoubtedly ensure that only legally binding and enforceable instruments may be considered as appropriate safeguards under this Article. Furthermore, Austria and Slovenia recall their conviction that the current wording of Art. 44 para 1 subparagraph poses a high risk of circumvention of the overall concept of legal barriers and guarantees as set out in Chapter V and which would therefore undermine the objective of the latter. Finally, Austria and Slovenia underline the importance of the proposal for Art. 42a 'Disclosures not authorised by Union law' by the German Delegation (doc. 12884/13) and the corresponding amendments voted by the European Parliament to Art. 43a which should be discussed in detail at the technical level.' Four delegations indicated their intention to submit statements at the Council meeting. The Presidency presented its discussion paper on the one-stop-shop mechanism. The Council Legal Service repeated its concerns regarding this mechanism, which had not been allayed by the amendments proposed by the Presidency. Some delegations took the same view, whereas others and the Commission disagreed.
19	24.09.2014	ASIV - 2511. Tagung - Coreper Part 11	Partial general approach1 on Chapter IV 12312/2/14 The Committee discussed the questions in the Presidency note. A large num-

Nr.	Datum	Akteur	Thema
			ber of delegations indicated that they would be able to support a partial general approach on Chapter IV on the understanding that the caveats referred to in the Presidency note applied. Regarding the four questions set out in the Presidency note, it was concluded that JHA Counsellors would try to further fine-tune the proposed solutions and that the Committee would revert to the issue at its session of 1 October 2014.
20	30.09.2014	ASTV - 2512. Tagung - Coreper Part 12	The right to be forgotten and the Google judgment - Orientation debate 13619/14 Partial general approach on Chapter IV 12312/4/14 The Chair briefly presented the Presidency note to the Council regarding 'the right to be forgotten'. The Committee discussed extensively the revised Presidency note on Chapter IV, which was widely welcomed. Some delegations nevertheless referred to a few outstanding issues. Following this discussion, the Chair indicated that the only issue on which further discussions would be held prior to the Council was the scope of the obligation for non-EU controllers to appoint representatives (Article 25). Germany made the below statement: "Statement by Germany on Chapter IV of the proposal for a General Data Protection Regulation as set out in Council document 12312/4/14 REV 4: Germany supports the partial general approach under the conditions listed in paragraph 8(i) to (iii) of the document. Germany reserves the right to return to the requirement for the mandatory appointment of a data protection officer for specific processing situations, due to its central importance in concluding discussions on the text."
21	19.11.2014	ASTV - 2519. Tagung - Coreper Part 13	Public sector = Partial general approach (1) 15389/14 The Committee discussed extensively the Presidency note. Following this debate the Chair concluded that the document would be revised by JHA Counsellors and that a new document on the public sector, together with Chapter IX would be submitted to the next Committee meeting.
22	26.11.2014	ASTV - 2520. Tagung - Coreper Part 14	Public sector and Chapter IX = Partial general approach - The one-stop-shop mechanism = Orientation debate 15655/14 15656/14 The Committee discussed extensively the Presidency note on the public sector and Chapter IX. Following this debate the Chair concluded that on the question of the inclusion of the public sector the right compromise had been found, but that on some other issues the document would be revised by JHA Counsellors with a view to submitting a revised document for a partial general approach to the Council. The Committee also discussed the Presidency note on the one-stop-shop mechanism. It was agreed that this question was not ripe for a partial general approach. The Chair concluded that the Presidency would endeavour to revise the document for the Council in order to take account of some of the most important comments made.
23	25.02.2015	ASTV - 2531. Tagung - Coreper Part 15	Partial general approach I: One-stop-shop mechanism 6286/15 The Committee discussed the three questions set out in the Presidency's note. Following a lengthy debate, the Chair concluded that the draft text of the General Data Protection Regulation would be amended according to the following points: 1) no quantitative threshold would be set for submitting cases to the European Data Protection Board; 2) a system of judicial review of legally binding EDPB decisions would be designed in such a way that the time period for launching an action for the annulment of EDPB decisions will be triggered by the publication of that decision; and 3) the autonomy

Nr.	Datum	Akteur	Thema
			of staff from the European Data Protection Board working for the European Data Protection Board would be increased.
24	04.03.2015	ASIV - 2532. Tagung - Coreper Part 16	Partial General approach1 – Chapter II – One-stop-shop mechanism (Chapter VI and VII) 6286/2/15 The Presidency presented the draft texts of Chapters II, VI and VII to the Committee with the request whether they could be supported with a view to reaching a partial general approach at the Council meeting on 12-13 March 2015. Following the discussion, the Chair concluded that the JHA Counsellors would be convened to attempt some further fine-tuning of the text of Chapter II. The current version of Chapters VI and VII would be submitted to the Council, subject to a possible modification of one provision.
25	29.04.2015	ASIV - 2539. Tagung - Coreper Part 17	Preparation for a general approach: Chapter III 1 7978/1/15 On the basis of the Presidency compromise text annexed to document 7978/1/15 REV 1, the Committee identified the main issues regarding Chapter III of the Regulation that will need further work with a view to reaching a General Approach in the Council on 15/16 June 2015.
26	20.05.2015	ASIV - 2542. Tagung - Coreper Part 18	Chapter VIII – Preparation of a general approach 8383/15 On the basis of the Presidency compromise text annexed to document 8383/15 the Committee discussed two questions on liability (Article 77) and confirmed the figures of administrative fines set out in the text (Article 79a). It was agreed that the JHA Counsellors would further elaborate the text of Article 77 with a view to reaching a General approach in the Council on 15/16 June 2015, as well as Article 76 on representation of the data subject.
27	27.05.2015	ASIV - 2543. Tagung - Coreper Part 19	Article 6 and recital 40 in Chapter II and Chapter III = Preparation for a general approach 1 9082/15 On the basis of the Presidency compromise text annexed to document 9082/15, the Committee identified the main issues that will need further work with a view to reaching a General approach in the Council on 15/16 June 2015.
28	03.06.2015	ASIV - 2544. Tagung - Coreper Part 20	Preparation for a general approach 9281/15 The Committee examined the Presidency compromise text for the General Data Protection Regulation in its entirety (doc. 9281/15) and the compromise text for the draft Data Protection Directive on scope (doc. 8745/2/15 REV 2). As a result of this examination, the Presidency instructed the Justice and Home Affairs Counsellors to prepare new compromise texts on the scope of the draft Regulation and Directive, the right to liability and compensation and other issues with a view to further discussion in the Committee on 9 June 2015.
29	09.06.2015	ASIV - 2545. Tagung - Coreper Part 21	Preparation for a general approach 9657/15 On the basis of the Presidency compromise text annexed to document 9657/15, the Committee referred two issues to the JHA Counsellors in order to attempt to accommodate concerns voiced by some delegations. The outcome of the discussion is set out in documents 9788/15 and 8745/3/15 REV 3.
30	19.11.2015	ASIV - 2564. Tagung - Coreper Part 22	Préparation du trilogue - Chapitres II, III, IV et V 13914/15 14076/15 With a view to preparing the next trilogue, the Committee examined Presidency compromise suggestions on the Chapters II, III, IV and V of the General Data Protection Regulation. The Presidency presented its suggestions on

Nr.	Datum	Akteur	Thema
			the main issues in document 13914/15. In addition, the Presidency submitted document 14076/15 which contains a comparative table reflecting in its fourth column the provisions on which either tentative agreements have been reached in the trilogues or on which the Presidency makes new compromise suggestions.
