

Matian van Soest
The Political Ecology of Malaria

In memory of Aart van Soest

Matian van Soest, born in 1984, is a social and cultural anthropologist with a regional focus on Eastern Africa and a thematic interest in infectious diseases. He works as scientific coordinator of the collaborative research center “Future Rural Africa” at the Universities of Bonn and Cologne and is a member of the AG Medical Anthropology of the German Anthropological Association.

Matian van Soest

The Political Ecology of Malaria

Emerging Dynamics of Wetland Agriculture
at the Urban Fringe in Central Uganda

[transcript]

This book was accepted as dissertation thesis by the Faculty of Arts and Humanities of the University of Cologne.

The dissertation was developed in the research project “GlobE - Wetlands in East-Africa: Reconciling future food production with environmental protection” funded by the German Federal Ministry of Education and Research and the German Federal Ministry for Economic Cooperation and Development (Funding Code: 031A250 A-H).
