Critical Theory and the Philosophy of Education

Editorial

The book series **Philosophy – Enlightenment – Critique** aims to promote philosophical thinking dedicated to a future worth living for everyone in times of global crisis. Climate change, political and religious authoritarianism, and growing social inequalities – the manifold and interconnected issues of our time require a return to the power of reason. In the spirit of a new enlightenment, the series initiates a dialog between different philosophical schools and traditions that critically scrutinize the past and present and explore the ramifications of sustainable alternatives. This requires a re-examination, re-interpretation and revision of the philosophical canon. The series also reveals the emancipatory potential inherent in the interplay between philosophy and other disciplines such as technology or aesthetics.

Tobias Lensch is a postdoctoral researcher and lecturer at the chair of Philosophy of Education and Educational Theory at Katholische Universität Eichstätt-Ingolstadt. **Krassimir Stojanov** is a professor and chair of Philosophy of Education and Educational Theory at Katholische Universität Eichstätt-Ingolstadt.
