Table of contents

Introducing early conceptual development of TA in Germany
Bettina-Johanna Krings, Armin Grunwald, Andreas Lösch, Dirk Scheer 7

1. Risk as a key concept in TA – the problem-oriented dimension

Early warning – the Achilles' heel of technology assessment (TA)?
Gotthard Bechmann 35

Methods and procedures of technology assessment and technology evaluation
Ortwin Renn 49

Safety for technology and society – theory and perception of risk
Erwin Münch, Ortwin Renn 77

Risk as a key category of social theory
Gotthard Bechmann 97

2. TA as advice – the consultative dimension

Learning processes: Problems of acceptance of TA among political decision-makers
Renate Mayntz 129

Consequences, addressees, patterns of institutionalization and rationality: Some dilemmas of technology assessment
Gotthard Bechmann 143

Away from TA – but where to?
Thomas Petermann 169

Technology assessment as policy advice
Thomas Petermann 197

3. TA as communication and participation – the discursive dimension

Technology assessment as a participatory and argumentative process
Herbert Paschen 219

https://doi.org/10.5771/9783748963073-1 https://www.inlibra.com/de/agb - Open Access -

Technology controversies: Technology assessment as a public discourse
Leonhard Hennen 229

Technology policy, technology assessment, and participation
Fritz Gloede 263

Recognition and acknowledgement: A consideration of the limits to the idea of "early warning"
Gotthard Bechmann, Fritz Gloede 293

4. TA as a theoretical approach – the action-theoretical and system-analytical dimension

Technology assessment: A strategic framework for the analysis and evaluation of technologies
Herbert Paschen, Thomas Petermann 321

Concept development of technology assessment: Review and outlook
Meinolf Dierkes, Katrin Hähner 343

Rational technology assessment
Carl Friedrich Gethmann 361

Technology assessment – between sociological systems theory and philosophical ethics
Armin Grunwald 371

The epistemological status and cognitive limits of technology assessment
Armin Grunwald 389

Problem-oriented research: Between politics and science
Gotthard Bechmann, Günter Frederichs 399

Rationalization or reflexive scientification? On the debate about the functions of technology assessment for technology policy
Fritz Gloede 421
